

Logo Concepts

Six initial directions for The Dandelion Effect.
Each one tells the story differently.

Concept 1 — The Single Seed

Minimal and elegant. One seed, mid-flight. Says everything without trying too hard. Works beautifully at any size.

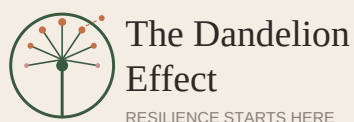

Concept 2 — Seeds in Motion

The seeds scattering shows the ripple effect — change spreading from one woman to everyone around her. Movement and energy.

Concept 3 — The Monogram

Bold "DE" lettermark. Modern, memorable, works as a favicon or app icon. The seeds keep it connected to the story.

Concept 4 — The Clock

A full dandelion clock — the moment before the seeds scatter. Beautiful, botanical, timeless. One seed is already breaking free.

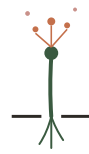

The Dandelion
EFFECT

ion

Concept 5 — The Wordmark

The seed replaces the dot on the 'i' in Dandelion. Subtle, clever, built into the name itself. Clean and professional.

the
Dandelion Effect

ROOTED. RESILIENT. RISING.

Concept 6 — Root & Rise

A dandelion growing through concrete. Roots visible below, seeds releasing above. The full story of resilience. "Rooted. Resilient. Rising."

Seeds in Motion

You chose Concept 2 as your favourite direction. Here are six variations exploring different moods and layouts — same idea, seeds scattering, change spreading.

Seeds in Motion — Variations

2A — Upward Drift

Seeds rising up from the text like thoughts taking flight. Gentle, aspirational. The further they go, the more they fade.

2B — Windswept

A trail of seeds carried by wind from a single source. Clean, directional energy. One thing leading to another.

2C — Constellation

Seeds scattered like stars across a dark sky with fine connecting lines. Powerful on dark backgrounds.

the dandelion

EFFECT

CHANGE THAT SPREADS

2D — The Spiral

Seeds spiralling outward from a single source. Organic, natural movement. Tagline: "Change that spreads."

The Dandelion
Effect

2E — Bold & Warm

Tighter cluster of seeds with bolder typography. Confident. No tagline — just the name and the energy.

the dandelion

MINDSET. STRENGTH. COMMUNITY.

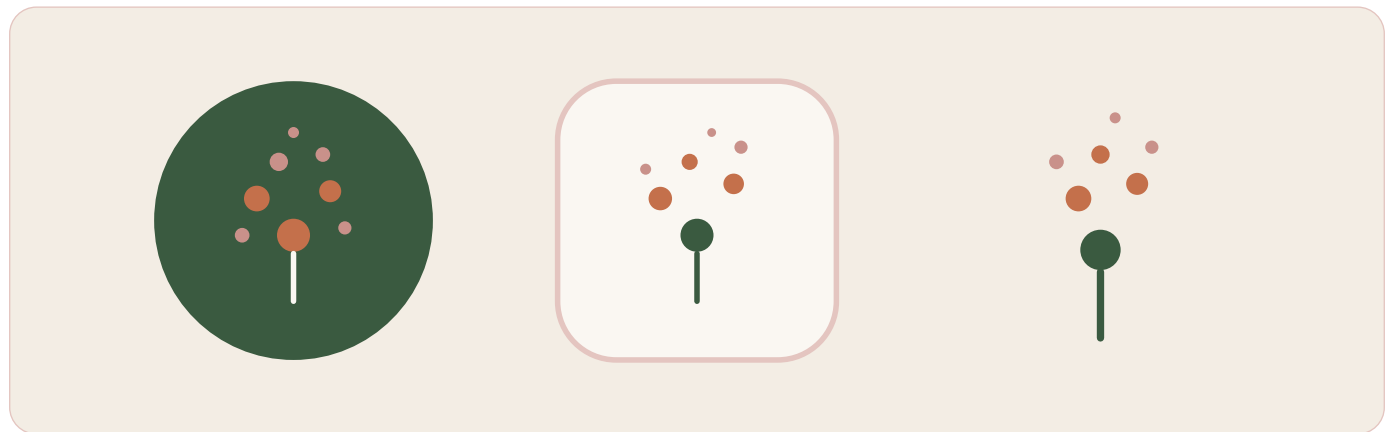

effect

2F — The Full Banner

Wide format for website headers and social banners. Seeds on both sides framing the name. "Effect" in terracotta. Tagline: "Mindset. Strength. Community."

Matching Icons

Three icon formats for any context — social profiles, favicons, and watermarks.

Dark Circle — Instagram, social profiles
Rounded Square — Favicon, app icon
Minimal Mark — Watermarks, email signatures

Next Steps

- Pick the variation that feels right — this is about gut instinct as much as design.
- We can mix elements across variations (e.g. 2D's spiral with 2E's bold type).
- Once chosen, the logo will be integrated across all 9 website pages.
- The icon version will be used for favicon, social media profiles, and email.
- All SVGs are vector — they scale perfectly from business card to billboard.
- Colours can be adjusted to suit different backgrounds and contexts.
